Chips

"Time flies—love stays." No, no, we didn't mean to say exactly that, but you get the general idea. The happy Easter holidays have passed rapidly—all too rapidly, for lovelorn swains—and now just six weeks stand between us and exams.

Already vague rumors totaling columns of printed matter in this issue of The Hatchet tell of the coming summer school, where those of us who are ambitious, or who weren't ambitious may earn a few credits. New courses are being offered at a scandalous rate, and a student is promised all the comforts of home during the warm weather, including cokes at leading beverage establishments near the University (adv.).

If press notices may be believed, seven new profs are to be imported for duty in Columbian College. What interests us most is the news that one of them comes from Chicago. Now maybe he'll tell us how to fire that cannon which roars on the campus in front of the Recorder's Office. Utility is our motto.

In connection with this utility idea, a headline writer says that an athletic dinner will be held. Just what sort of a menu makes a dinner athletic is problematical, but as the first course we respectfully suggest Mexican jumping beans. And perhaps even meat balls.

Foodstuffs remind us that the home economics or domestic science or whatever its name is, department of the University is worth while after all, for we read in a local paper the other day where a G. W. graduate won a prize (first prize, if you please) for telling why a particular brand of bread was better than all other kinds put together. The prize was real money, which proves education useful.

The Columbian debaters are optimistic at any rate. They are holding a banquet which is to be repeated in 2028—a sort of a century affair, it would seem. Many times we have wondered at the nationality of the members of the organization, but now we know. Scotch, did you say, Watson? How did you guess it?

The girl friend has started off Leap Year all right by giving us a bid to the Pan-hel Prom. If all the rumors we hear can be swallowed, it will be a good investment to hire a tax, grab a taxi, and attend, so as to obtain one of the first copies of the Petticoat. Far from being obsolete, the Gamma Eta Zetas claim that this "yellow" sheet will be better than ever this year, and will totally eclipse the pink plague of the Razz Berry.

Some cynic observes that, gray would be a better color than yellow for the paper because of the claws that show through the usual run of stories printed. But then, he should remember that this is another year, and our dime goes to the first co-ed selling the paper that reaches us, whether or not she is easy on the eyes.

Imitation, they say, is the most sincere type of flattery. We have it on good authority that a prominent society matron had a "scandal sheet" lampooning the guest of honor, distributed at a dinner recently. The authority doesn't state whether or not the paper had a corner deleted by the censor.

Which brings us back, in a rambling sort of way, to a statement made by one of the Gamma Eta Zetas, to the effect that for so many years the society has been building up a reputation that censorship is not needed on the Petticoat. This year, a paper totally uncensored is to appear—and well, fill in the blanks yourself.

Mutiny in camp is eminent when Doc Bolwell orders the Dramatic Association to leave out all obscene passages in that mathematical mystery, "Two Times Two Equals Five," and the manager replies by saying that the play will appear exactly as written. We must buy tickets for the first night, even at the risk of being arrested as a material witness by some of the police-women.

Interfraternity baseball is underway. Soon the time will be ripe for that famous conflict between the Faculty and the Pyramid Honor Society. Persons in the Faculty camp won't tell how long Prexy has been in spring training, but the Pyramids must not be overconfident. The Prexy's office has been completely painted for over a month now.

The summer school announcement says that there are two hundred libraries in the District of Columbia open to research students in summer school. And now we wonder where all the books in said libraries go when we want them to prepare special topics.

Our pet gripe for this week is the women that insist on blocking doorways and stairs leading from classes, thus keeping Dick Rollo and others from making their next classes on time. It ain't right.

DICK ROLLO.

20TH COLUMBIAN WOMEN BANQUET BRILLIANT EVENT

Large And Distinguished Group Attend Annual Dinner At Chevy Chase Club

PROGRAM INCLUDES PROMINENT WOMEN

Banquet Marked by Initial Presence of Mrs. Marvin as "First Lady of University"

A large and distinguished group of women gathered at the Chevy Chase Club last Thursday evening for the Twentieth Annual Banquet of the Columbian Women of George Washington University.

The banquet was held in the main dining room of the club which was gay with jonquils, hyacinths and other spring flowers sent by Mrs. William M. Jardine, wife of the Secretary of Agriculture.

The guests were received in the reception room on the first floor. In the receiving line were Mrs. Harvey W. Wiley, President of the Columbian Women, Mrs. Cloyd Heck Marvin, Madame Jaroslav Lipa, Mrs. John Bell Larner, Mrs. Frank Barrows Freyer, Mrs. David Allen Robertson, Miss Ada Rainey, Mrs. Howard L. Hodgkins, Mrs. Daniel C. Chace and Miss Julia MacMillan.

Following the invocation hymn, Mrs. Joshua Evans, Jr., extended greetings on behalf of the President, Mrs. William B. Hoover, and the Board of Governors of the Club, mentioning that this was the twelfth banquet of the Columbian Women held at the Chevy Chase Club, and the twentieth anniversary banquet.

Mrs. Wiley Presides

In opening the program Mrs. Wiley spoke of the pleasure of the Columbian Women in having present for the first time Mrs. Cloyd Heck Marvin, wife of the President of the University, and Mrs. John Bell Larner, wife of the Chairman of the Board of Trustees.

Her announcement of a gift from Mrs. Stanley M. Rinehart to the fund which is being raised for the third unit of the new University plant, was greeted with applause.

Miss Ada Rainey, Art Editor of the Washington Post, spoke on "The Essential Value of Art," emphasizing that art should be thought of not as a superficial interest but as an essential part of life, and making a plea for the encouragement of artists in Washington in order that this city might become a true art center.

Madame Lipa, wife of the Counselor of the Czechoslovakian Legation, a charming figure in her native costume, gave a group of piano solos. A graceful touch was the opening of her program with "The Star Spangled Banner" and its closing with the Czechoslovakian national anthem.

Mrs. Freyer Speaks

Mrs. Freyer, wife of Captain Frank Barrows Freyer, U. S. N., spoke on "The Women of Peru," telling of the progress of women in that country and the accomplishments of a number of outstanding Peruvian women. Distances, not differences, Mrs. Freyer said, are responsible for misunderstandings between the peoples of the Americas, and these misunderstandings are being speedily wiped out with the coming of better methods of transportation. Mrs. Freyer is the first American woman to be decorated with the Order of the Sun of Peru, which was conferred in recognition of her work in the establishment of humanitarian societies and prison reforms in that country.

Mrs. David Allen Robertson's address, "Cats and Cads; or, Between the Devil and the Deep Sea" was an extremely erudite and witty discussion of the modern novel. Her wide acquaintance with books and authors enables Mrs. Robertson to give a fascinating interpretation of present day literature.

The program closed with the singing of Auld Lang Syne.

Colonial Glee Club And Columbia Sing

Joint Concert Given in the Hall of Nations at the Washington Hotel

One of the big events in the social calendar of the Glee Club was held Saturday evening, April 14, when the G. W. Glee Club combined with the Columbia University Men's Glee Club in a concert given in the Hall of Nations at the Washington Hotel.

The joint glee clubs, presenting an ensemble of eighty voices, gave a program of popular and classical songs. Dr. Marvin spoke, as did Ray Anthony, president of the local chapter of the Columbia University Alumni Association. Many women prominent in Washington society were patronesses of the affair.

After the dual concert, which included solos, Elmer Brown's orchestra and several G. W. co-eds, who served as blind dates for the boys from Columbia University, made possible an hour or two of snappy dancing.

Summer Students of Library Science To Have Wide Field For Research

Two Hundred Libraries in District of Columbia Afford Ample Opportunity For George Washington Students to Study Library Science at First Hand

The work of the Division of Library Science is in charge of the Director, Professor Alfred F. W. Schmidt. Courses will be given by Professor Schmidt and by Miriam Uhler Chisholm, Associate in Library Science.

Two hundred libraries in the District of Columbia, embracing all varieties, governmental, public, institutional, among them the largest and most beautiful one on the American continent, and several of the most important special collections in the world, as well as a very effective public library, offer to the student of library science an unsurpassed and unparalleled field for observation, study and research.

To enable students to take advantage of this opportunity, the George Washington University is offering courses in library science so designed as to embody the leading recommendations of the Board of Education for Librarianship of the American Library Association, whose purpose is to develop a high standard of library training, and also to prepare directly for the examinations of the United States Civil Service Commission.

Environment is Good

Education, however, is something more than mere technical training. It means preparing the individual human to meet the conditions of life in the concrete, therefore, the moral, social, and artistic as well as the intellectual environment. Washington offers this environment as no other American city does, not only in its religious and academic institutions, libraries, museums, art galleries, lectures and concerts, but also in its historical associations and scenic beauties. Residence here, if only for a summer, is in itself an important, if not decisive, factor in one's education. And education in its broadest and deepest meaning is indispensable to a successful librarian, for his activity covers the entire range of human knowledge and culture. The librarian is a teacher in the noblest sense of the term. And one who would bring knowledge to others must himself possess knowledge and also the ability to create in others the thirst for knowledge.

This is the ideal of our courses in library science. Those offered in the summer school are designed to harmonize with the curriculum of the regular University session and also to be of special benefit to students who come to Washington specifically for the summer.

Present Time Opportune

There never has been a more propitious time for entering the field of librarianship than now. The development, for instance, of the activities of our public libraries is little short of phenomenal. Since many young men and women, as well as adults can not take advantage of the work offered in schools and colleges because of the expense involved, or lack of time, or inaccessibility, on the one hand and prohibitive entrance requirements on the other, public libraries are enlarging the scope of their usefulness through extension service enabling them to reach even the remotest districts and developing at the same time into agencies for out-of-school and adult education. Institutional libraries, in their turn, have come to be in-

tellectual laboratories cooperating with research laboratories in the promotion of original investigation and increasing contributions to knowledge. So, too, libraries serve commercial, industrial, religious and social organizations and enterprises.

Young men and women specially trained and having the proper personality and disposition, are in demand everywhere in the United States, and Washington offers unique opportunities to students of initiative and talent who desire to enter the profession of librarianship.

Practical Service Aim

Our summer school courses aim to prepare students for practical library service. The underlying principles may be briefly stated as follows:

The purpose of Course 1 is to give a general introduction to library science, tracing the origin and development of libraries from the earliest times to the present, and outlining the background necessary for a more thorough understanding of the function and, therefore, the preparation of the catalogue; then presenting the fundamental rules of cataloguing, from the simplest title-page to the more difficult complications, with accompanying practice work on each point involved.

Course 20 consists of an introductory outline of the history of classification and an intensive study of the Dewey Decimal system, as that is the one most extensively adopted in public libraries, with practice work to familiarize the student with its operation, accompanied by self listing and the use of the Cutter notation.

Course 30 consists of two parts, the first a general survey of library organization and administration; the second, a study of the most important reference books and the investigation of special problems, for as no one person can know everything, the essentially important thing is to know how and where to obtain definite information.

Bibliography Offered

Course 31 is the logical continuation of Course 30 which was given in 1926. Its purpose is the study of bibliography, the selection of the best books constituting the bibliography of a given subject, the authorities to be consulted and the practical as well as the theoretical considerations involved. Experience in the University Library will constitute an integral part of the course. While intended primarily for those who have taken the preceding one, this course is nevertheless open also to others who may satisfy the instructor of their fitness to take it. This course will not be given in 1928. As to general preparation, it is evident that the student's education should be comprehensive. In particular he should have a good reading knowledge of French and German at least, with as much more foreign language equipment as possible. For many important books, indeed in some instances the most authoritative ones, are written in languages other than English, and every efficient library has to deal, at any event, with some of them. Also the ability to use the typewriter is a valuable asset, and should be acquired before entering upon the study of library science.

LAW SCHOOL DEAN AT INSTITUTE GATHERING

Conflict of Laws Section Met at Ann Arbor During Past Week

Dean William C. Van Vleet of the George Washington University Law School attended a conference of the advisors on the Conflict of Laws section of the American Law Institute held at the University of Michigan, Ann Arbor, Michigan, during the past week.

The American Institute is engaged in the compilation and restatement of the principles of the substantive law in its various branches. For this purpose it has called together the reorganized authorities in each field to meet from time to time and at convenient places to prepare the restatement. When the task is completed it will be submitted to the legal profession as representing the best authority available on the principles of the various branches of the law.

Other authorities engaged in the restatement of the Conflict of Laws are: Joseph W. Bingham, Stanford University Law School; John G. Buchanan, Member of the Bar of Pittsburgh; Armistead Dobie, University of Virginia Law School; Frederick F. Foville, Supreme Court of Iowa; Herbert F. Goodrich, University of Michigan Law School; Monte M. Leuraun, Member of the Bar of New Orleans; William H. Page, University of Wisconsin Law School, and Austin W. Scott, Harvard University Law School.

GAMMA ETA ZETA TO INITIATE TOMORROW

Banquet Will Be Held at Grace Dodge Hotel at 7.30, for Seven Girls

Gamma Eta Zeta, Professional Journalistic Sorority of the University, will initiate seven girls into membership at a banquet tomorrow evening, April 19, at 7.30 o'clock, at the Grace Dodge Hotel.

Those who will receive their matriculation at that time are: Betsy Booth, women's sports editor of The Hatchet; Helen Dix, Editor-in-Chief of the Colonial Wig, and copy editor and member of the Board of Editors of the Cherry Tree; Marjorie Folsom, copy editor of The Hatchet; Alice Graham, member of the Board of Editors of The Hatchet; Margaret Malze, Chairman of the Board of Editors of the Cherry Tree; Maude O'Flaherty, senior reporter on The Hatchet, and Harriet Ross, sorority editor and member of the Board of Editors of the Cherry Tree.

Guests of Honor

Mrs. Mary Roberts Rinehart, a patroness of the society, Dean and Mrs. Henry Gratton Doyle, Professor and Mrs. Elmer Louis Kayser, Professor Audley L. Smith, Mr. and Mrs. D. C. Chace and Mr. Douglas Bement have been asked to be guests of honor.

Each initiate is listed on the program for a five-minute talk on some topic associated with journalism.

Betty Wilbanks, President of Gamma Eta Zeta, will be toastmistress. The dinner menu will be unique and distinctly "journalistic" in style. Decorations will be carried out in the Gamma Eta Zeta colors, red and white.

SUMMER PROF

Rolvix Harlan, professor of Sociology at the University of Richmond, who will teach several courses in the Summer School here.

APRIL 21 SET FOR G. W. CLUB MEET

Fifth Inter-Class Track Meet Will Be Held at Central

GREEK RELAYS FEATURE

Fischer Memorial Trophy Goes to Winning Class; G. W. Club Sponsors Event

George Washington University will hold its Fifth Inter-Class Track and Field Meet at Central High School Stadium on Saturday, April 21, at 1.00 p. m. Entry blanks may be obtained from the Gymnasium Office, 2010 H Street, or from the Registrars' Offices at Columbian College and the Law and Medical Schools.

The class winning the meet will be presented with the Louis A. Fischer Silver Memorial Trophy, and Silver Cups will be awarded to the individual point winners of the men's and women's events.

Feature Events

The feature events of the day include the Inter-Sorority and the Inter-Fraternity Relay Races. Men who have earned their letters in track are not eligible to take part in the Inter-Fraternity Relay.

The events for men scheduled for the meet include 100-yard, 220-yard and 440-yard dashes, 600-yard, 880-yard, one-mile and two-mile runs, broad and high jumps, shot-put, discus throw, javelin throw and pole vault. The following events for women are included: 50-yard and 70-yard dashes, 50-yard hurdles, high and broad jumps, discus throw and shot-put.

Rules and Regulations

1. Spiked shoes not permitted in "closed" or "feature" events.

2. To hold any event there must be at least three (3) contestants.

3. Freshman, Sophomore, Junior and Senior Classes, and the Graduate School may be represented.

4. No man who has won a letter in track will be permitted to run in the "closed" events or on Inter-Fraternity relay teams.

5. Winners of Individual Point Trophies in past Inter-Class Meets will not be awarded point trophies or medals, although they are eligible to compete for points for the Class Trophy. (This rule will not apply where the individual point trophy is not an annual outright award.)

6. "Special Students" will rank according to the number of hours work completed.

7. A student registered in more than one Department of the University will be considered a member of the class in which he is carrying the greater number of hour's work.

8. Law Department first-year class will rank as Sophomores; second-year class as Juniors; and third-year class as Seniors.

9. First, second and third places in each event to count 5, 3, and 1 points, respectively. Fourth, fifth, and sixth places in "open" events to count 2, 1, and 1-2 points, respectively, for men trying for the "closed" event medals.

10. AN ENTRY BLANK MUST BE PREPARED BY EVERY CONTENDANT.

Medals

The class winning the Inter-Class Meet will be presented with the Louis A. Fischer Silver Memorial Trophy.

Silver Cups will be awarded to the Individual Point Winners of the men's and women's events.

Gold, silver and bronze medals will be awarded to second, third and fourth point winners respectively, in the men's (open) and women's events, and to the first, second and third point winners in the women's events. (Continued on page 3)

COLONIALS HOLD INTERNATIONAL DEBATE TONIGHT

Philippine Team, Touring U. S. A., Will Meet Colonialists Here This Evening

ENTIRE INDEPENDENCE TO FILIPINOS, SUBJECT

Frishie, Seymour, Sanders, Hatch to Argue Negative for George Washington

The second international debate of 1928 will be held this evening when the team from the University of the Philippines meets the Colonial debaters, in Corcoran Hall.

During a two-month tour of the United States, which began in Seattle and which is to take them as far as New York, the team from Manila is meeting representatives of fifteen of the most prominent American colleges and universities.

The subject used in each debate on this trip is "Resolved, That the Philippine Islands should be granted immediate and complete independence," the visitors taking the affirmative side.

Friendly Relations Objective

As to the purpose of this series of debates, the Philippine team issues the following statement: "The youth of the Philippine Islands covet the friendship and good will of the youth of the United States. It is by the interchange of ideas between their representatives and by contact with the national institutions of both countries that the American and Filipino students will learn to know each other, and knowing each other, understand the ideals of each nation."

"The present tour... is educational in purpose. Educational because it will give us an insight into American life and give us first-hand knowledge of America's progress and of American mode of thought. It is also educational in the sense that we hope to present the Philippine problem free from political bias and stripped of the petty irritants and antagonisms engendered by politics, prejudice, and misunderstanding."

G. W. Debaters Experienced

George Washington University, which takes the negative side in this meeting, is represented by Karl Frishie, John L. Seymour, and Gwyn Sanders, with Douglas L. Hatch as alternate. Seymour was a member of a previous international debating team, which met the team from England, while Frishie and Sanders received experience in various intercollegiate debates this year.

This group, under the guidance of Rev. George Farnham, instructor in public speaking in the University, and Mr. Gilbert L. Hall, of the Law School faculty, has spent much time studying the subject, and is expected to be able to present a masterly discussion.

Teodoro T. Evangelista, Jacinto C. Borja, and Pedro Camus will speak on the affirmative side. All took part in the debate between their school and the University of Oregon, last year, and in other important encounters. Deogracias Puyat is alternate. Each of these men has won several medals and prizes for excellence in oratory and debate.

The coach of the team is Professor Carlos P. Romulo. Prof. Romulo is a graduate of Columbia University, and is the author of several English texts.

Basis of Comparison

This debate will be of particular interest to supporters of the G. W. debating team, as it affords a basis of comparison of the Colonial team with those of other prominent American universities with which the Filipinos argue the same subject.

Admission will be free. The debate starts at 8.15 tonight, in Corcoran Hall, room 1. The judges have not yet been announced.

Mrs. Jones To Prove Theorem Before Club

Student to Demonstrate Solution Before Meeting of Mathematics Club

Tonight at eight o'clock, the demonstration of her proof of Fermat's Last Theorem by Mrs. Lenora H. Jones, a George Washington University student, is to take place before the Mathematics Club's regular bi-weekly meeting.

This will be the first public exposition of Mrs. Jones' work. If those present at this meeting find no flaws in Mrs. Jones' work, it will be presented for criticism to the more prominent American mathematicians, and eventually, it is hoped, to the Academy.

While she refuses to divulge the details of her proof until this evening's meeting, Mrs. Jones says that the unusual point about her method is its freedom from complication. "Even a freshman should find it easy to follow my proof, for its simplicity is astonishing," she states. This is particularly noteworthy since some of the previous unsuccessful proofs have filled whole volumes.

This session will be held in Corcoran Hall, Room 22, at 8 o'clock this evening.

WASHINGTON, D. C., WEDNESDAY, APRIL 18, 1928.

THE GRADUATE ENDOWMENT FUND

The Graduate Endowment Fund, now in its third year of existence, has become an established tradition at George Washington.

The Fund, founded by graduates, administered by graduates, and perpetuated by succeeding graduating classes, stands as a pledge on the part of alumni of their belief in the University. Its significance will increase as the years pass, not only because of its financial assistance to the University, but as evidence of the confidence which the alumni place in George Washington. And such confidence is the most valuable asset an institution of learning can have.

The small amount of the pledge and the manner in which payments are made places no great burden upon the individual; while the aggregate of pledges from some five hundred seniors will present a formidable total.

The task of perpetuating the Fund has been left by its founders in the hands of the Senior Presidents, as the leaders of their classes, but the full acquaintance of all seniors with the aims and objects of the Fund will make such perpetuation a custom to be complied with as a matter of tradition and choice.

WHAT PRICE DEBATING?

Tonight, in Corcoran Hall, six young gentlemen, three of them George Washington students; the other three students of the University of the Philippines, will engage in a verbal encounter, the second international debate to be held at George Washington since school opened last fall.

George Washington's three young gentlemen will endeavor to show that the Philippine Islands should not be granted "immediate and complete independence." The three young gentlemen from our distant dependencies will try to prove that the islands in question should be given this freedom from the apron strings of Uncle Sam.

The significant thing about this and all other debates lies in the fact that no matter which way the decision happens to go—pro or con—the members of each team continue to believe exactly what they did prior to the debate, and furthermore, the audience, already having its collective mind made up, is impervious, by and large, to the more or less fervid appeals of the debaters.

THE G. W. SUMMER SCHOOL

The Summer School announcements in this issue again bring to mind the many advantages which George Washington University offers to those who have the ambition to work and get an education at the same time. Summer School in the National Capital is an attraction which few appreciate, but many partake of. In fact, for those who need just so many credits to graduate, or who are desirous of getting along a little faster than the evening courses will allow during the rest of the year, the chance of attending between-season classes has proven to be a real boon.

Being used to the old campus those of us who grind out the year between five and seven feel that it is a real relief to get away from G Street. At the same time there are many out in the States who come to Washington each summer with the sole view of combining education with the opportunity of living in the best city in the world.

EASTER vacation, with its respite from the cares of school, presented an opportunity for a little recreation of which few fraternities failed to take advantage. The result was an extensive and varied social program.

One of the best dances of the holidays was given by Kappa Alpha at the Bannockburn Club. It was an exceptionally enjoyable affair, in spite of being given on the supposedly unlucky Friday, the thirteenth.

Professor Henry White Edgerton, of the Law School Faculty, visited friends at Cornell University, Ithaca, New York, during the Easter holidays.

S. P. E. gave a tea dance, followed by a buffet supper at their house on Wednesday, April 11.

An initiation banquet was given by Alpha Delta Theta to its initiates at the Washington Hotel on Monday, April 16.

Acacia gave a most successful dance on April 14.

Theta Delta Chi held their Easter dance on Tuesday, April 10.

Theta Upsilon Omega gave a tea dance at their house on Saturday, April 14.

Phi Sigma Kappa also had no fear of unlucky Friday and gave an enjoyable dance at the chapter house on April 13.

Alpha Delta Theta was entertained at an Easter party given at the home of Mary Mattingly on Thursday, April 12.

Peggy Matze gave a most delightful and unusual bridge luncheon on Wednesday of Easter week in the Woodward and Lothrop Tea Room. The decorations of green and yellow carried out the idea of spring.

Theta Upsilon Omega will hold their annual Spring Formal at the Congressional Country Club on Wednesday, May the second.

Herbert Angel spent a part of the Easter holidays in Petersburg, Va.

Chi Sigma Gamma, the Chemical Sorority of George Washington University, founded April 30, 1923, announces the formal pledging of Estelle Miles, Cora Lee Squibert, Carolyn Seibert, Carolyn Snyder, Monica Snyder, Judith Steele, Erdine Timberlake and Grace Young. The pledging ceremony took place last Wednesday, April 11, at the home of Catherine Pearl Mahoney, former Universal Solvent, with Virginia Hefty, Catalyst, officiating.

The Alumnae Club of Alpha Delta Theta was hostess to actives and pledges at a tea dance at the Lafayette Hotel on Saturday, April 7.

Professor Charles Sager Collier, of the Law School Faculty, visited relatives at Kinder Hook, New York, during the past week.

John Jay Chapter of Phi Alpha Delta, Law Fraternity, elected the following officers, all from different states: Otto L. Rogers, Mississippi, Justice; Charles E. Mahoney, Massachusetts, Vice Justice; Gwynn Sanders, Ohio, Secretary; Harold Hufford, Indiana, Treasurer; James T. White, District of Columbia, Marshal; Charles E. Futterer, Maryland, Interfraternity Delegate, Law School.

Xi chapter of Sigma Tau Honorary Engineering Fraternity will hold its annual Founders' Day banquet at the Roosevelt Hotel, Wednesday, April 18.

Phi Theta Xi, professional engineering fraternity, held a smoker Wednesday evening, April 11, at the home of Tilly Ellenberger.

DARTMOUTH STUDENT REFUSES PHI BETA KEY

HANOVER, N. H. (IP).—Charles Eastman, a Dartmouth senior and honor student, has added his name to those few who have in the past few years refused to accept the invitation of Phi Beta Kappa to membership in the honorary fraternity.

In refusing the offer, Eastman said: "It seems to me that the Dartmouth chapter of Phi Beta Kappa places unnecessary emphasis on its methods of electing members on the mere attainment and retention of a high scholastic average. If a man considers that he is being highly honored when an instructor grades him at the end of the term with an 'A' or a 'B' for his work in a particular course, then undoubtedly he will feel it an honor to belong to Phi Beta Kappa, for it is upon such awards that membership in the society is based.

"If it were true that a man's scholastic average is an accurate indication of his intellectual capacity, I could understand the reason for the present standard. It is open to doubt, however, that his grades are even the best indication of what he is intellectually capable of accomplishing. They may show, to be sure, what he knows at the particular moment when information is called for on a quiz or examination. High grades depend almost entirely on diligent preparation and review. High standing is largely proportionate to application. Too little critical discussion and too much repetition of mere factual knowledge, simple learning by rote, in other words, make for lack of thought on the part of the individual student. It is usually easier—and no more important—to get the facts together than to draw inferences from them."

LAW SCHOOL SUMMER TEACHERS ANNOUNCED

Session to Cover Period of Thirteen Weeks; Divided into Two Terms

The teaching staff of the Law School Summer Session will include Dean Van Vleck, Professors Collier, Spaulding, Arnold, Moll, Fryer and Oppenheim, of the regular Faculty, and Professor William Armstrong Hunter, Associate Professor of Law, of the University of Florida.

The Summer Session for 1928 will cover a period of thirteen weeks, divided into two terms of six and one-half weeks each. Classes in the Summer Session will begin Monday, June 18, and end Saturday, July 28. Examinations will be held July 30, 31 and August 1.

Classes in the second session will begin Thursday, August 2, and end Wednesday, September 12. Examinations will be held September 13, 14 and 15. Wednesday, July 4, and Monday, September 3, will be holidays. The requirements for admission are the same as those for the regular session. The following courses will be offered: Common Law Actions and Personal Property, Domestic Relations, Quasi-Contracts, Partnership, Suretyship, Water Rights, Agency, Equity Pleading and Code Pleading, Wills, Administration of Estates, Corporations.

Twelve Fellowships Offered By Michigan

\$1,200 for Research at Michigan College of Mining and Technology for Coming Year

The Michigan College of Mining and Technology is offering twelve research fellowships for the year 1928-29, carrying stipends of \$1,200 each.

Holders of these fellowships will be engaged in the study of various problems in connection with the general research program at the College, for which the State of Michigan has provided \$50,000 for the coming year. The opportunity for this work is open to students with a Bachelor of Science degree or its equivalent or to specially qualified students.

The following fields of research have been approved: Chemistry, Geology, Geophysics, Mechanical Engineering, Ore Dressing, Mining.

Applications should be in the hands of L. F. Duggan, Registrar, Michigan College of Mining and Technology, Houghton, Mich., not later than May 15.

Further information may be obtained by consulting the bulletin in the offices of the School of Engineering, Building 16.

HEADS SUMMER SCHOOL

Elmer Louis Kayser, associate professor of History in the University, who is Director of the Summer School here.

PEP CLUB ELECTS OFFICERS

At a recent meeting of the Pep Club held on the Thursday before the holidays, elections were held for next year's officers. The following were elected: President, Gilbert Downer; Vice President, Darrell Crain; Secretary, Bernardine Horn; Treasurer, Bradford Swope; Sergeant-at-arms, Lawrence Allen.

NOVELIST SPEAKS

Hugo Wast, one of the most notable of Spanish-American novelists, delivered an address in Spanish in Corcoran Hall 1, on Tuesday, April 17, at 8:30 p. m.

ORCHESTRA REHEARSAL

All members of the orchestra are urgently requested to attend rehearsal as tentative plans have been made for them to furnish the music at the forthcoming varsity play, "2 X 2 = 5," which will be given at Wardman Park Theater during the week of April 23.

MICH. TANKMEN BEST OF "10" MINNEAPOLIS, Minn. (IP).—The University of Michigan won the Big Ten swimming championship in a meet here recently, taking 53 points to itself. Northwestern finished second with 29 points, nosing out Minnesota, which had 25 points.

Here's some "inside stuff" on smoking

SOMEWHERE in the neighborhood of your center of gravity there's a spot devoted to smoke appreciation. We could describe it more fully, but this is no organ recital. The point is: *Light a Camel*, pull in a fragrant cloud of cool joy—and listen to your smoke-spot sing out—"Haleelooya!" As the noble redskin puts it—we have said!

SIX TEAMS PLAY OPENING GAMES IN TWO LEAGUES

Acacia Downs Kappa Sigma
And Leads in Alpha
League

Sigma Chi and T. U. O.
DEFEAT RIVALS IN BETA

Acacia-Kappa Sig Game a Pitcher's
Battle; Clapper and Blackman
Star

Six fraternity teams swung into action in the inaugural games of annual spring championship baseball series, Sunday, on the Monument Grounds.

Acacia turned in a victory over Kappa Sigma in the only Alpha League game, while Sigma Chi and Theta Upsilon Omega each turned in a win over Kappa Alpha and Sigma Nu, respectively. By winning their game Acacia went into undisputed lead of Alpha League, while Theta Upsilon Omega shares that honor with Sigma Chi in Beta League.

The Acacia-Kappa Sigma game was a pitcher's battle between "Babe" Clapper of Acacia and Wheaton of Kappa Sigma; the former granting only four hits, while the latter gave but five safe bingles. Steve Blackman, hard-hitting Acacia slacker, played the hero part by driving out a screaming two-base hit to score two mates in the sixth inning.

Score by innings:
Acacia..... 000 202 000—4
Kappa Sigma..... 110 000 100—3
Batteries: For Acacia, Clapper, pitcher, and Riddle, catcher; for Kappa Sigma, Wheaton, pitcher, and Popham, catcher.

T. D. X. Leads D. T. D. 3-0
In the only other Alpha League game Theta Delta Chi held a 3-0 advantage over Delta Tau Delta at the end of the fourth inning when their game came to a sudden halt because of the time limit on their playing permit.

Score by innings:
Theta Delta Chi..... 300 0—3
Delta Tau Delta..... 000 0—0
Batteries: For Theta Delta Chi, Battle, pitcher, and Brumbaugh, catcher; Delta Tau Delta, Eberley, pitcher, and McCar, catcher.

S. P. E. and S. A. E. decided to postpone their game because of inability to muster a team.

T. U. O. and Sigma Chi Win
In Beta League, T. U. O. and Sigma Chi got away to a flying start by defeating Sigma Nu and Kappa Alpha.

T. U. O. came through strong in the sixth inning to push over five runs. They added three more in the seventh to make their victory convincing.

Herzog became more effective in the late innings of the game and held the Sigma Nu nine helpless during the last four stanzas of their battle.

Score by innings:
T. U. O..... 521 005 3—16
Sigma Nu..... 405 000 0—9

Batteries: For T. U. O., Herzog, pitcher, and Young, catcher; for Sigma Nu, Cogswell and Athey, pitchers, and Rangely, catcher.

In the only other scheduled game Sigma Chi downed Kappa Alpha in a rather listless game by a 4 to 9 count. Smith, big Sigma Chi first baseman, poled out a four bagger with one on in the sixth inning to add to the score.

The erratic play of the Kappa Alpha nine cost them the game. Ferguson granted the Sigma Chi boys only five clean hits while the Kappa Alpha nine gathered a total of ten. In addition to holding the foe to only five hits, Ferguson struck out ten opposing batters.

A wild throw by Davis, K. A. third baseman, allowed three runs to score in the fifth inning.

Score by innings:
Sigma Chi..... 030 032 010—9
Kappa Alpha..... 001 000 300—4

Batteries: For Sigma Chi, Sickler and Russell, pitchers, and Beckman, catcher; for Kappa Alpha, Ferguson, pitcher, and Marshall, catcher.

GIRL SWIMMERS MEET STRONG SULLINS TEAM

Tentative Team Selected For Varsity
Event To Be Held
April 21

The Women's Swimming team of George Washington University will contend for honors in the swimming meet with Sullins College on Saturday, April 21, at eight o'clock in the Y. W. C. A. pool.

The match with Sullins College is the most important event of the Varsity swimming season. The Sullins team is reported to be an unusually strong one and the University girls will have an opportunity to demonstrate the result of their spring practices.

No definite selections have been made for the events of the meet but a tentative list has been made out by Mrs. Russell. According to present expectations Louise Mackall, Claudia Kyle, Corolla Morris and Julia Denning will enter the sixty-yard free style; Helen Humphreys, Judith Steele, Margaret Moreland, and Julia Denning will swim in the breast-stroke race; Betty Brandenburg and Claudia Kyle will meet Sullins in the back-stroke and Mary Ewin and Louise Omwake will take part in the one-hundred and twenty-yard competition.

For the plunge, Louise Omwake, Corolla Morris, Louise Mackall and Betty Brandenburg will contest Sullins for first honors. Julia Denning, Judith Steele, Louise Mackall and Mary Ewin will represent George Washington in the diving. Four dives are obligatory for each entrant and two optional dives will complete the contest.

C. C. N. Y. STATISTICS SHOW HIGH AVERAGES

Only Forty Two Per Cent Require
Allotted Time to Graduate,
Registrar Announces

Only 42 per cent of the students of the City College, New York, require the allotted time to graduate, while thirty-five per cent complete their four-years arts or science courses in three, and one-half years, according to the latest report of Dr. Morton Gottschall, registrar of the university. Recent records show that while 15 per cent of the student body remain an additional semester, the student average is commendably high.

The February class of 1928 revealed the fact that of the 198 members, 77 completed a semester early, 85 finished in the prescribed time, 31 matriculated in four and one-half years and two for five years while three members of the class earned their degrees in three years.

"It simply shows the eagerness of City College students to get out into a profession or into business," Dr. Gottschall remarked. They take their education very seriously, he added.

Dr. Gottschall said that in view of the fact that fully 80 per cent of the student body worked after school hours, the above record is surprising. "That fifteen per cent of the undergraduates are delayed by half a year is a very good record when you consider that the college authorities allow only three-quarters of the assigned credits to those who fail to attain a C average in their studies of the previous semester," the registrar explained.

The above ruling, established with the aim of setting a high scholastic criterion and of relieving the congested conditions of the various courses, has delayed many of the undergraduates forced to devote much of their time to outside work, Dr. Gottschall added.

The summer session has proved to be an indispensable factor in reducing the length of the college courses. Sixty-six of the seventy-seven who received their degrees in three and one-half years attended summer session at the college.

QUALITY NEEDED IN EDUCATION

CAMBRIDGE, Mass. (IP).—"The situation of education is little better than chaotic, and there is a lack of a coherent system of schools in this country," declared Professor H. W. Holmes, Dean of the Harvard Graduate School of Education to a Harvard Crimson reporter recently.

"Education suffers in America from a confusion of purposes," he said. "Justified a hundred-fold in our faith in schooling as an instrument of democracy, we have cared more for the spread of education than for its fitness for specific ends. We have been interested in quantity rather than quality."

AWARDS ANNOUNCED AT ATHLETIC DINNER

Julia Denning, Basketball Manager,
Is Toastmistress of Basketball
Hockey Banquet

The women athletes of the basketball and hockey squads of George Washington University celebrated the end of their respective seasons by a dinner at the Iron Gate on Tuesday night, April 3, at 7 o'clock. Julia Denning, manager of basketball, presided as toastmistress.

Mrs. Russell outlined the successful course which hockey has run at the University from the time of its first appearance up to the present year. During the first season no outside games were scheduled and the teams only met in inter-class matches. Later, games were played with private schools. However, during the past season George Washington booked only schools with collegiate standings.

Awards were announced in basketball and hockey as follows:

Basketball major letters—Naomi Crumley, Jean McGregor, Althea Lawton, Jenny Turnbull, Louise Omwake, Betty Zimmerman, and Julia Denning. Basketball minor letters—Evelyn Polson, Mary Sproul, Betty Brandenburg, Winnie Faunce, and Maxine Alverson.

Hockey major letters—Alice Graham, Maxine Alverson, Mary Sproul, Betty Zimmerman, Caroline Hobbs, Alice Adams, Louise DuBose, Mary Ewin, Jenny Turnbull, Myrtle Crouch, Evelyn Polson.

Hockey minor letters—Louise Omwake, Betty Brandenburg, and Claudia Kyle.

EASTERN ATHLETICS ARE NOT SUPERIOR—ROPER

COLUMBUS, Ohio (IP).—Eastern athletic superiority? Bah! There's nothing of the sort.

Not in these words, but in words of the same general tone, did William A. (Bill) Roper, Princeton football coach, addressing an Ohio State Eastern reporter, condemn the belief that better athletic groups emanate from the imperious East than from the more rustic schools of the West.

Roper attended the one-day congress of the Central Ohio Life Underwriters' Association of Columbus.

"Football teams depend upon the material furnished, and to a degree on the coach and backing," the football mentor said.

"You can't have a good team without the material, of course, but this material can be found in all parts of the country—not only in the East."

INTEREST LESSENER BY DISCARDING "TIP-OFF"

CAMBRIDGE, Mass. (IP).—"To take the tip-off out of the basketball game would relieve the game from the element of tenseness, which both teams face before each tip-off, and it would materially weaken the game from the standpoint of the spectator," Coach A. E. Wachter, of Harvard, told a Harvard Crimson reporter, commenting on the proposal of Coach J. H. Barry, of Iowa State, to eliminate the jump ball at center as a means of speeding up play and banishing scrambles.

Under the suggested plan, plays would start out of bounds under the defensive team's basket after field goals and free throws had been scored. The toss of the coin would decide who would start the ball in play at the beginning of the game.

"Taking out the tip-off would also take some of the skill of formation from the game," Wachter said, "for it would eliminate the necessity of building plays around the tip-off, necessitated by the ability or heights of some centers. There are plays in the game built around the forward that can enable the team opposed by a tall center to take their opponent's tip-off."

Under the suggested plan, plays would start out of bounds under the defensive team's basket after field goals and free throws had been scored. The toss of the coin would decide who would start the ball in play at the beginning of the game.

"Taking out the tip-off would also take some of the skill of formation from the game," Wachter said, "for it would eliminate the necessity of building plays around the tip-off, necessitated by the ability or heights of some centers. APRIL 21 SET AS DATE OF G. W. CLUB TRACK MEET

(Continued from page 1)
third point winners, respectively, in the men's "closed" events.

Bronze medals will be awarded to the winners of the mile and two-mile events.

A bronze medal will be awarded all contestants winning first places who do not win point medals.

Silver cups are to be awarded to the winning teams in the Inter-Sorority and Inter-Fraternity Relay Races.

Entry blanks, showing list of events and giving instructions for filing with the proper persons may be obtained from the Gynnasium Office, 2010 H Street N. W., or from the Offices of the Registrars of Law and Columbian Colleges. All students are urged to participate in the Inter-Class Meet. University girls should see Mrs. Russell, Director, Women's Athletics.

INTERFRAT BASE- BALL SCHEDULED

Members of Interfraternity
Council Divided Into Two
Leagues

GAMES HELD ON SUNDAYS

Contests to be Played on Potomac
Park Field Ending
May 20

At a meeting of the Interfraternity Council last week the following schedule of baseball games was arranged for the teams competing for the interfraternity baseball cup which is given yearly to the championship team.

League one, which is known as the Alpha League, contains six teams, including Theta Delta Chi, Kappa Sigma, Delta Tau Delta, Sigma Phi Epsilon, Acacia, and Sigma Alpha Epsilon. League two, which is known as the Beta League, contains only five teams, including Theta Upsilon Omega, Phi Sigma Kappa, Sigma Nu, Sigma Chi, and Kappa Alpha. Because of only five teams in the Beta League one team will remain unscheduled each Sunday.

Games will be played on the Potomac Park lots each Sunday until May 13, by which time all scheduled games should be over. May 20 has been set aside for the playing of all games which might be postponed. The final championship game will be played on May 27 with the winners of Alpha and Beta Leagues participating.

The schedule:

Alpha League
April 22—T. D. X. vs. K. S.; D. T. D. vs. S. P. E.; Acacia vs. S. A. E.
April 29—T. D. X. vs. Acacia; K. S. vs. S. P. E.; D. T. D. vs. S. A. E.
May 6—T. D. X. vs. S. P. E.; D. T. D. vs. Acacia; K. S. vs. S. A. E.
May 13—T. D. X. vs. S. A. E.; D. T. D. vs. K. S.; S. P. E. vs. Acacia.
May 20—S. P. E. vs. S. A. E.; T. D. X. vs. D. T. D.

Beta League
April 22—P. S. K. vs. T. U. O.; S. N. vs. S. X.
April 29—T. U. O. vs. S. X.; K. A. vs. K. A.
May 6—P. S. K. vs. S. N.; K. A. vs. T. U. O.
May 13—P. S. K. vs. S. X.; S. N. vs. K. A.

CO-EDS WILL COMPETE IN CLASS TRACK MEET

All Girls Must Sign Up For Entrance
By Friday, April 20, in Order
To Participate

The women of George Washington University will compete in the interclass track meet at Central High School on Saturday, April 21.

Each class in the University will be represented by a number of leading track artists and the victory will go to the class gaining the most wins in the various events.

Track practice will continue every day this week beginning at the usual hour of two-thirty o'clock. Numerous freshmen have already taken advantage of the past practices, but more upper classmen are needed to add a greater edge to the competition. It is imperative that all entrants take part in the practice before the inter-class meet.

No entries may be made on the field. All girls must sign up in Mrs. Russell's and Miss Davis' office promptly. The final date for entering is Friday at noon. Any girl may report between one and four-thirty o'clock.

JUDGES SELECT G. W. U. SPEAKER

Final Contest Held To Choose
Representative In Oratori-
cal Contest

ORATOR NAMED MONDAY

Representatives From Georgetown,
C. U. and American U. to
Compete

The final contest to choose George Washington University's representative for the regional section of the fourth National Intercollegiate Oratorical Contest on the Constitution was held Monday night in Corcoran Hall. The judges were Professor Farnham, Gilbert L. Hall and Miss Kathleen Duggan, national secretary of Delta Sigma Rho.

At the preliminary contest held on April 5th, six students were selected and these six competed again on last Monday evening. The six winners and their subjects were as follows: Donald Bowie, Jr., "Hamilton and the Constitution"; Warren L. Briggs, "The Constitution"; Harryman Dorsey, "Marshall and the Constitution"; Paul Keough, "The Constitution"; Myrtle Posey, "The Constitution"; and Lillian Rhodes, "The Constitution." These six were chosen from the eighteen George Washington entrants.

Contest April 27
The regional contest will be held in Corcoran Hall, on April 27th. Representatives from Georgetown University, Catholic University and American University are included in this region and will compete with George Washington. It is possible that a few other colleges will also be assigned to this region.

Mr. Randolph Leigh of the Washington Star has charge of the arrangements for this regional contest for the National Intercollegiate Oratorical Contest organization which is sponsoring contests of this kind throughout the United States.

STUDENTS SUGGEST NEW PREXY

WATERVILLE, Me. (IP).—The students of Colby College are to be given an opportunity to express their desires as to whom they want for a new president in a straw vote on the question which is to be held by the Colby Echo, undergraduate newspaper. The results of the straw vote will be entirely unofficial, of course, but may have some influence on those whose business it is to pick the new executive, the students believe.

They say P.A.
is the world's largest
seller

I DON'T doubt it, nor do I wonder why. Just open a tidy red tin and get that full fragrance of Nature's noblest gift to pipe-smokers. Then tuck a load in the business-end of your old jimmy-pipe.

Now you've got it—that taste—that Lead-me-to-it, Gee-how-I-like-it taste! Cool as a condition. Sweet as making it up. Mellow and satisfying. Try this mild, long-burning tobacco, Fellows. I know you'll like it.

PRINCE ALBERT
—the national joy smokes!

FACULTY OFFERS VARIED COURSES DURING SUMMER

Courses in Summer Sessions of
Columbian College Are
Listed

EDUCATION COURSES ARE OPEN TO C. C. STUDENTS

Major Departments of Columbia Col-
lege and School of Education
Offer Courses

The Faculty of Columbian College will offer during the Summer Sessions, the courses listed below, Elmer Louis Kayser, Director, announces. In addition, students in Columbian College may take courses in Education offered by the Faculty of the School of Education.

Botany: General Botany, Plant Study, Physiological Plant Anatomy, Advanced Field Work.

Chemistry: General Chemistry, Theoretical Chemistry and Qualitative Analysis, Organic Chemistry, Inorganic Chemistry, Advanced Organic Chemistry, Research in Organic Chemistry.

Economics: Principles of Economics, Corporation Finance, Economic History of the United States, Marketing, Foreign Trade.

English: English Rhetoric, Survey of English Literature, American Literature Since the Civil War, The American Drama, Anglo-Saxon, Shakespeare, The Neo-Classical Movement, The Romantic Movement, Wordsworth and Coleridge, Studies in Neo-Classical Literature.

Geology: Mineralogy, General Geology, Seminar.

German: Elementary German, Second-Year German, Scientific German.

History: American History to 1815, American History From 1815, General European History, English History, History of the West, The Renaissance, Modern Imperialism, The American Revolution, France Since 1815, Seminar.

Mathematics: College Algebra, Analytic Geometry.

Music: Appreciation, Public School Methods.

Philosophy: Logic, Ethics, Introduction to Philosophy.

Physics: Introductory General Physics, Laboratory Physics, Introductory Laboratory Physics.

Psychology: General Psychology, Applied Psychology, Psychological Tests, Seminar.

Political Science: Government of the United States, Constitutional Law, Political Theory, American Political Parties, World Politics, Seminar.

French: Beginning French, Intermediate French, Modern Fiction, Modern Drama.

Spanish: Beginning Spanish, Intermediate Spanish, Contemporary Spanish Novelists, Modern Drama.

Sociology: Principles of Sociology, Social Adjustment, Social Ethics.

Zoology: Zoology, Histology and Physiology.

CALENDAR OF SUMMER SESSIONS, 1928

June 15, Friday—Registration begins for courses in Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education and the Division of Library Science.

June 18, Monday—Instruction begins in the nine-weeks' courses and other courses not starred in Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, the Division of Library Science, and in the first term of the Law School.

June 29, Friday—Registration begins for six-weeks' courses in Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, and the Division of Library Science.

July 2, Monday—Instruction begins in the six-weeks' courses marked by a star (*).

July 4, Wednesday—Holiday.

July 7, Saturday—Classes held at the usual hours.

August 1, Wednesday—First term in the Law School ends.

August 2, Thursday—Second term in the Law School begins.

August 11, Saturday—Six-weeks' courses in Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education and the Division of Library Science end.

August 18, Saturday—Nine-weeks' courses in Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, and the Division of Library Science end.

September 15, Saturday—Second term in the Law School ends.

DR. JOHN CARTWRIGHT CONCLUDES LECTURES

Describes Protestant and Catholic Reformation.

Dr. John Cartwright delivered the last of his series of lectures on Church History before the Newman Club last Tuesday evening. He described the Protestant Reformation, the Catholic Reformation which followed it and the Spanish Inquisition, showing in detail the events which caused them and their effects on our own life at the present time.

Due to the Easter Holidays there will be no meeting of the Club until April 24th at which time election of officers for the following year will be held.

Plans were discussed for the annual luncheon at the Congressional Country Club to be held early in June. This has been the final affair of the year and has always been well attended.

R. H. Sargent Speaks To A. S. C. E. Chapter

Topographic Engineer of Geological
Survey to Give Illustrated Lec-
ture on Alaska

R. H. Sargent, topographic engineer of the U. S. Geological Survey, Alaskan Division, is to talk before the Washington student chapter of the American Society of Civil Engineers in C. H. 23, at 8.15 p. m., Friday, April 20. His offering will be an illustrated lecture on Aerial Photographing in Alaska.

Mr. Sargent has been in Alaska some twenty-five years, and plans to show some of the beautiful slides and pictures he has collected during that time. He will also describe the map-making being done in Alaska by means of aerial photography.

The annual spring meeting of the American Society of Civil Engineers will be held in this city this year under the auspices of the Washington chapter, which includes the G. W. student chapter. On Tuesday, April 24, a special meeting will be held of the various student chapters of the United States, in the Washington Hotel.

Y. W. TO SELL CANDY AT "2X2-5" NEXT WEEK

Plans to be Announced at Meeting
on Friday; Also Committees
For 1928-29

At the Y. W. C. A. meeting to be held at noon Friday, in the Women's Building, final plans will be announced concerning the selling of candy at the Dramatic Association's presentation, "2x2-5," next week, at Wardman.

Margaret Monk is chairman of the committee in charge of the sale, and will need girls to help make candy in the Home Economics kitchen as well as sell it at the performances. The proceeds from the candy will be used to send delegates to the annual conference of college students at Eaglesmere, Pennsylvania.

A week-end party will be held by the Y. W. girls in May, the date to be announced at the meeting Friday. Chairmen of the 1928-29 committees, social, service, membership, publicity and meetings, will also be announced by the president, Louise Du Bose, at the meeting this week.

Cabinet members of the Y. W. C. A. will meet in the Women's Building today, Wednesday, at 12 o'clock.

TICKETS ARE SELLING FOR PLAYERS' 2x2-5

Show To Open At Wardman April 23:
Reduction In Prices To G. W.
Students

Tickets are selling now for "2x2-5" which will be given all next week beginning Monday night, April 23, at the Wardman Park Theater. Prices are \$1.50 and \$1.00, but upon presenting their student activity cards, G. W. students will be admitted at a reduction of 50 cents on the first night, and at a 25-cent reduction on the second.

Regular prices will prevail thereafter. Tickets may be obtained from the office of the Dramatic Association in the old "Bunny Hole" or from members of the association.

The cast that will be seen in the roles of Gustav Weid's dramatic comedy consists of Neil Childs, Marion Campbell, Harry Clayton, John Shorey, Mary Crowley, Frank Westbrook, Betty Clark, Roberta Harrison, Kenneth Years, Claudia Sutton, Abner Frank, Robert Parsons, Oscar Berry, Fern Henninger, Margaret Maize, Lawrence Johnson, R. R. Sawyer, Max Tendler. Dennis Connell, director of the Troubadour's musical comedy, "Sharps and Frats," is director of "2x2-5."

Debate Scheduled With Filipino U.

Filipinos Arguing in Favor of In-
dependence for Their
Country

Another international debate is scheduled for the Colonial varsity debaters when they meet the team of the University of the Philippines here Wednesday, April 18.

The Filipino group is touring the United States, visiting the principal colleges and universities throughout the country. They are arguing in favor of immediate independence for their country, while their hosts take the opposite view.

John L. Seymour, Karl Frisbie and Gwynn Sanders, with Douglas L. Hatch as alternate, will compose the George Washington team for this meeting. All are experienced in debating, and Seymour has participated in a previous international debate. Admission will be free. The debate is to start at 8.15 Wednesday evening, April 18, in Corcoran Hall. Prof. Gilbert L. Hall of the Law School, will preside.

G. W. SCHOOL OF EDUCATION PLANS COURSE VARIETY

Professional Subjects To Be Taught During The Summer

VISITING INSTRUCTORS ON SUMMER FACULTY

Psychology, Nature Study, and Other Scientific Studies Will be Offered

The School of Education will offer a wide variety of courses in professional subjects during the six-week term. The following courses will be given:

Principles of Education, Technique of Teaching, History of Education, History of American Education, The High School, Junior High School, Elementary School Curriculum, School Administration, Educational Tests and Measurements, Teaching of English, Supervision, and Seminar.

The staff of the Department of Education will include Professor Arthur D. Wright of Dartmouth College; Dr. M. L. Coombs of the State Board of Education, Richmond, Virginia; Harry J. Steel, Director of Training, State Teachers College, Buffalo; Dr. Orwin B. Griffin.

Of interest to teachers also will be the courses in Music to be offered by Bernice Randall Angelico. Mrs. Angelico will offer courses in Appreciation and in Public School Methods.

The Department of Psychology will during the nine-week term, offer courses in General Psychology, Applied Psychology, Psychological Tests, and a Seminar. These courses will be given by the Acting Chairman of the Department, Professor Moes, and Miss Omwake.

Nature Study Given

Of special interest to teachers also will be a course in Nature Study, to be offered by Professor Griggs, and Miss Cooper. This is an outdoors course in the plants, higher and lower, growing around Washington.

In addition to these courses in professional subjects there will be a large number of courses during the six-week term in History, Botany, Economics, English, Philosophy, Political Science, and Sociology.

Two courses will be offered, during the coming summer session for Engineers, which will not be given during the academic year 1928-29. They are, Civil Engineering 5, a course in Elementary Surveying, with lectures and recitations daily except Saturday, from 5.10 to 7 o'clock, with field work on Saturday, from 1 to 7 o'clock. This course will run from June 7 to 23rd, inclusive, and will be given by Professor French.

Professor Platt will give Mechanical Engineering 33, a course in engineering economics, dealing with the first cost, repairing expense, depreciation, and salvage value of equipment used in the various fields of Engineering. This course will be given daily except Saturday at 7.45 a. m. for six weeks, beginning June 18th.

Y. W. C. A. GIVES EASTER BASKETS TO ORPHANAGE

Emily Maretz Heads Committee Distributing Donations

The members of the George Washington University Y. W. C. A. donated Easter baskets to thirty-eight children at Hillcrest, the new city orphanage on Saturday, April 7.

A committee composed of Emily Maretz, chairman, Elizabeth Buntin, Evelyn Norton, Sarah Reed and Helen Robb made Easter a delightful occasion for the orphans of Hillcrest. Each child was surprised, on Sunday morning, to discover a basket with his own name on it, which had appeared in some mysterious manner. The baskets were filled with jelly-beans, chocolate bunnies, and chocolate and brightly colored eggs.

SUMMER SESSIONS RULES ANNOUNCED

Each Student Must Present Himself In Person For Registration

CREDENTIALS TO BE FILED

Directions for Registration in all Departments of University Are Issued

Before attending any summer session class each student must present himself in person for registration according to information recently issued by Elmer Louis Kayser, Director of the Summer Sessions. Students who have not previously filed satisfactory credentials are not eligible to register as candidates for degrees.

In Columbian College, the Graduate School of Letters and Sciences, the School of Engineering, the School of Education, the Division of Library Science students may register on the following days:

Six-weeks' term: July 6-7.

Nine-weeks' term: June 15-16.

8 a. m. to 12 and 2 p. m. to 6 p. m.

In Corcoran Hall, 725 21st Street N. W.

Law School students will register in

Stockton Hall, 720 20th Street N. W.

Registration for credit in any classes

offered by Columbian College, the

Graduate School of Letters and

Sciences, the School of Engineering,

the School of Education, or the Division

of Library Science closes three

days after the class has started, and

no change in program will be permitted

after that time.

Requirements Stated

The requirements for admission to the Law School are the same as those for the regular sessions, as stated in the Law School announcement in the general catalogue. For candidates for the degree of Bachelor of Laws the requirement is the completion before admission of two years of college work, sixty semester hours. Students from other law schools may be admitted for the Summer Session only as regular or as unclassified students.

Registration should be completed by the opening date of each term. Students may register for one or both terms. No students will be permitted to register after the first week of a term.

The Summer Sessions constitute a regular short term of the University. Students dropped or suspended from any department of the University for any reason may not register in the Summer Sessions during the period of suspension.

Special students will be admitted on the same basis as during the regular academic year.

Y. W. C. A. GIRLS PLAY BUNNY

These four girls of the George Washington Y. W. C. A. visited the City Orphanage on Easter to distribute Easter baskets. Left to right, Emily Maretz, Elizabeth Buntin, Evelyn Norton, and Helen Robb.

Civil Service Positions Available In All Branches of Federal Service

Examinations Announced by Commission to be Held on Various Dates Covering Positions in Technical Branches of Departments in Washington and Field Services Elsewhere

Below is brief information concerning examinations by the United States Civil Service Commission within the past few days.

Both men and women may enter any examination; appointing officers, however, have the legal right to specify the sex desired in requesting certification of eligibles.

Further information may be obtained from the Commission at Washington, D. C., or its representative at the post office or custom house in any city.

Senior Engineering Draftsman, Patent Office, Washington, D. C., at \$1,860 a year. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than April 14. The date for assembling of competitors will be stated on their admission cards, and will be about ten days after the close of receipt of applications. Subjects to be rated: Perspective drawing, 40 per cent; trade-mark drawing and lettering, 25 per cent; drawing from rough draft and specification, 35 per cent.

Junior Veterinarian, Bureau of Animal Industry, for duty in the field, at \$1,860 a year. Certain specified education and training required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than April 28. The date for assembling of competitors will be stated on their admission cards, and will be about ten days after the close of receipt of applications. Subjects to be rated: Veterinary anatomy and physiology, 30 per cent; veterinary pathology and meat inspection, 35 per cent; theory and practice of veterinary medicine, 35 per cent.

Trained Nurse at \$120 a month for women and \$125 a month for men. Trained Nurse (Psychiatric) at \$135 a month for women and \$140 a month for men. Panama Canal Service. Certain specified training and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than April 28. The date for assembling of competitors will be stated on their admission cards, and will be about ten days after the close of receipt of applications. Subjects to be rated: Practical questions (in anatomy, hygiene, and nursing), 80 per cent; education, training and experience, 20 per cent.

Associate Physiologist and Histologist at \$3,000 to \$3,600 a year. The examination is to fill a vacancy in the Bureau of Dairy Industry, for duty at Beltsville, Md., and vacancies occurring throughout the United States in positions requiring similar qualifications. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than April 24. Subjects to be rated: Education, training and experience, 70 per cent; thesis or publication (to be filed with the application), 30 per cent.

Associate Entomologist at \$3,600 a year. Assistant Entomologist at \$2,400 to \$3,000 a year. Bureau of Entomology, for duty in Washington, D. C., or in the field. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than April 24. Subjects to be rated: Education, training and experience, 70 per cent; thesis or publication (to be filed with the application), 30 per cent.

Physicists Wanted Junior Physicist, Bureau of Standards, Washington, D. C., and Naval Research Laboratory, Beltsville, D. C., at \$1,860 a year. Certain specified education and training required. Optional subjects: Electricity, heat, mechanics, optics, physical metallurgy and radio. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than May 12. The date for assembling of competitors will be stated on their admission cards, and will be about ten days after the close of receipt of applications. Subjects to be rated: General physics, 30 per cent; mathematics through calculus, 30 per cent; practical questions on each optional subject chosen, 40 per cent.

Junior Technologist, Bureau of Standards and Geological Survey, for duty in Washington, D. C., or in the field, at \$1,860 a year. Certain specified education and training required. Optional subjects: Ceramics, paper technology, petroleum technology, rubber technology and textile technology. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than April 28. The date for assembling of competitors will be stated on their admission cards, and will be about ten days after the close of receipt of applications. Subjects to be rated: General chemistry, elementary physics, and mathematics up to and including calculus, 50 per cent; practical questions on each optional subject chosen, 50 per cent.

Associate Textile Technologist at \$3,000 a year, Assistant Textile Technologist at \$2,400 a year, Bureau of Standards, Washington, D. C. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than April 24. Subjects to be rated: Education, experience and fitness, 70 per cent; publications, reports, or thesis (to be filed with the application), 30 per cent.

Mathematicians Desired Junior Mathematician, Coast and Geodetic Survey, Washington, D. C., at \$1,860 a year. Certain specified education and training required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than May 8. The work of a mathematician in the Coast and Geodetic Survey involves computation and adjustment of the data obtained from the field work in one or more of the various branches of geodesy, terrestrial magnetism, tides and currents, and the preparation of the results for publication.

Junior Engineer and Deck Officer, Coast and Geodetic Survey, at \$2,000 a year. Certain specified education and training required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than May 1. The field officers of the Coast and Geodetic Survey constitute one of the six commissioned services of the United States. They hold relative rank with officers of the Navy and the Army.

Warder (Head of Cottage) at \$1,140 a year, Warder (Housekeeper) at \$900 a year, Warder (Relief Class) at \$900 a year, Federal Industrial Institution for Women, Alderson, W. Va., under the Department of Justice. Appointees are assigned to a laundry. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than June 29. Competitors will not be required to report for examination at any place, but will be rated on their education, training and experience, on a scale of 100.

Need for Pathologists Pathologists (Small Fruit Investigations), Bureau of Plant Industry, for duty in Washington, D. C., or in the field, at \$3,800 to \$5,000 a year. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than May 8. Subjects to be rated: Education, training and experience, 70 per cent; thesis or publication (to be filed with the application), 30 per cent.

Junior Astronomer, Naval Observatory and Nautical Almanac Office, Washington, D. C., at \$1,860 a year. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than April 28. The date for assembling of competitors will be stated on their admission cards, and will be about ten days after the close of receipt of applications. Subjects to be rated: Mathematics (algebra, geometry, trigonometry, plane analytics, calculus and mechanics), 45 per cent; astronomy and related physics (elementary questions in general and spherical astronomy and related branches of physics), 30 per cent; practical computations (including the use of logarithms), 25 per cent.

Junior Crop and Livestock Estimator, Bureau of Agricultural Economics, for duty in Washington, D. C., or in the field, at \$1,860 a year. Certain specified education and training required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than April 28. The date for assembling of competitors will be stated on their admission cards, and will be about ten days after the close of receipt of applications. Subjects to be rated: Statistical calculations and methods, 40 per cent; general agriculture, 60 per cent.

Physicist at \$3,800 a year, Associate Physicist at \$3,000 a year, Assistant Physicist at \$2,400 a year, Bureau of Standards and Bureau of Mines, Washington, D. C. Certain specified education and experience required. Optional subjects: Heat, electricity, mechanics, optics, radio, physical metallurgy, or any specialized work in the field of physics not included in any of the above. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than May 8. Subjects to be rated: Education and experience, 70 per cent; writings (publications, reports, or thesis to be filed with the application), 30 per cent.

Biochemists Needed Biochemists (Soil Fertility) at \$3,800 to \$5,000 a year, Associate Soil Technologist at \$3,000 to \$3,600 a year, Assistant Soil Technologist at \$2,400 to \$3,000 a year, Bureau of Chemistry and Soils, for duty in Washington, D. C., or in the field. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than May 8. Subjects to be rated: Education and experience, 70 per cent; publications or thesis (to be filed with the application), 30 per cent.

Senior Topographic Draftsman at \$1,860 a year, Topographic Draftsman at \$1,680 a year, Assistant Topographic Draftsman at \$1,500 a year, Junior Topographic Draftsman at \$1,320 a year, Departmental Service, Washington, D. C. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than May 8. Subjects to be rated: Education, experience, and fitness, 70 per cent; submitted drawings to be filed with the application, 30 per cent. As the commission has had difficulty in securing sufficient eligibles for these positions, qualified persons are urged to apply.

Assistant Paleobotanist, Geological Survey, Washington, D. C., at \$2,400 a year. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than May 8. Subjects to be rated: Education, training, and experience, 70 per cent; writings (to be filed with the application), 30 per cent.

Explosives Organic Chemist, Pittsburgh Experimental Station of the Bureau of Mines, Pittsburgh, Pa., at \$3,800 a year. Certain specified education and experience required. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than May 8. Subjects to be rated: Education, training, and experience, 70 per cent; writing (to be filed with the application), 30 per cent.

Further returns in the nation-wide Universities' Presidential Poll, conducted by The Independent, have been received during the past week. This gives a grand total of 49,401 votes cast, with Herbert Hoover receiving 23,445.

Alfred Smith still holds second place with a poll of 14,049. Charles Dawes and James Reed hold third and fourth places, respectively.

The final returns of the poll are as follows: Hoover, 23,445; Smith, 14,049; Dawes, 3,374; Reed, 2,425; Lowden, 2,227; Ritchie, 1,396; Walsh, 1,226; Donahay, 518; Willis, 449; Curtis, 292.

COLUMBIANS SET SPRING BANQUET AS CENTURY FETE

Debaters To Celebrate Centennial of One of G. W.'s Oldest Organizations

AFFAIR TO BE HELD IN HAMILTON HOTEL

Committee Completes Necessary Arrangements to Make April 27 Banquet Biggest Columbian Affair

The Columbian Debating Society centennial will be celebrated by the members in the form of a banquet in the Blue Room of the Hamilton Hotel on Friday evening, April 27, at eight o'clock.

Some enterprising members recently found that the celebration of the hundred years' existence of one of George Washington's oldest organizations was due. Although for one whole century Columbian debaters have been looking forward to the year 1928, the present members of the society in their excitement amid a series of heated debates almost forgot the society's centennial.

The committee, composed of W. S. Rumbaugh, J. L. Lyons and James G. Wingo, has made all the preparations necessary for the banquet. Many members have expressed their intention to bring lady guests to give variety to the affair. The committee has brought down the price per cover to two dollars. Arrangements for accommodation can be made with the members of the committee or with the president of the society, Edward C. Gallagher.

The next meeting of the Columbian Debating Society will be on Friday evening, April 20, in Corcoran Hall 15. The subject of the debate will be: "Resolved, That Sensational Newspapers be Suppressed."

R. H. SARGENT TO SPEAK AT ENGINEERS MEETING

Address on Survey Work in Alaska to be Accompanied by Colored Slides

The George Washington University student chapter of the American Society of Civil Engineers has obtained Mr. R. H. Sargent, of the U. S. Geological Survey, as its principal speaker at the regular monthly meeting of the chapter in C. H. 23, on Friday evening, April 6, 1928; at 8.15 p. m.

Mr. Sargent was in charge of the Aerial Survey expedition in Alaska in 1926, and will give an illustrated lecture on that work. He has spent twenty-three years in the survey work of Alaska and comes highly prepared to talk on this subject. His talk will be illustrated by movies and a number of remarkable, colored slides. Student talks and a short business session will round out the meeting.

All interested students and their friends are invited to attend.

GRADUATE FUND ACTS TO PLEDGE CLASSES OF '28

Aims And Purposes of Fund To
Be Presented To All
Seniors

SENIOR PRESIDENTS
COOPERATE IN WORK

Pledges To Be Reported At Meeting
Of Board of Administrators
April 25

With the approach of Commencement an active effort to present to all seniors of the University the aims and purposes of the Graduate Endowment Fund, in order that those who so desire may sign pledges, has been begun and will be carried on during the next few weeks by the Board of Administrators of the fund in cooperation with Senior Class Presidents.

The fund, which was founded two years ago by the Classes of 1926, already has reached substantial proportions and it is the hope of the board that the Classes of 1928 will materially increase the total amount pledged. According to the board, the number of pledges to the fund was doubled the second year and is expected to be more than doubled this year.

The purpose of the fund is to provide a permanent source of income to be used for the development of George Washington University, and to give each graduate opportunity to share in its establishment. The standard pledge is in the amount of \$100, payable in ten yearly installments of \$10 each, the first of which is not due until one year from graduation.

When the principal of the fund has reached the sum of \$100,000 the board of Administrators may turn over to the University such sums as it may vote for erection of buildings, acquisition of sites, maintenance and purchase of equipment. At no time, however, may money be drawn so as to leave a balance of less than \$50,000 on deposit. At the present time a total of \$11,625 has been pledged to the fund.

Senior Presidents Cooperate

Since its founding, it has been customary each year for the Senior Class Presidents to cooperate with the Board of Administrators in perpetuating the fund. This year's Presidents who are taking an active part in the work are: George Dewey, President of the Senior Class of the School of Medicine; Edgar F. Goldberger, President of the Senior Class of the School of Engineering; James R. Kirkland, President of the full-time Seniors of the Law School; Betty Jo Hopkins, President of the Senior Class of the School of Education; Alben E. Olson, President of the Senior Class of Columbian College; and Francis E. VanAlstine, President of the part-time Seniors of the Law School.

These Presidents will meet with the Board of Administrators on April 25, at which time a report will be made

of all pledges which have been signed by members of the Classes of '28.

The members of the Board of Administrators, five of whom are elected by the contributors and one designated by the General Alumni Association, are: Arthur F. Johnson, M. E., '15, Chairman; Gilbert K. Ludwig, B. S., in M. E., '26; Henry H. James, B. S., in C. E., '27; Evelyn W. Jones, A. B., '21, Secretary, and George Spangler, A. B., '27.

SUMMER SCHOOL ATTRACTS GRADS

Requirements For Master of
Arts Degree May Be Satisfied
In Summer Session

MANY SUBJECTS OFFERED

Graduate Work Given in Chemistry,
Education, History, English and
Geology

An increasingly large number of students enroll for Graduate work in the Summer Session each year. Last year about 150 students in the Summer Session were working toward advanced degrees.

The requirements for the degree of Master of Arts may be satisfied by Summer School attendance exclusively. These requirements involve, in addition to the thesis, the satisfactory completion of twenty-four semester hours of work forming a consistent plan of study and a minimum attendance at this University of at least two semesters or one semester and one Summer Session of nine weeks, or three Summer Sessions of nine weeks each, or four Summer Sessions of six weeks each.

Dean's Approval Necessary

The candidate's choice of subjects must be approved by his major department and by the Dean. Students should consult members of the major department before registering. For a detailed statement of the requirements for the Master's and the Doctor's degrees, the student is referred to the announcement of the Graduate School in the general catalogue of the University.

The following graduate courses will be offered during the Summer Sessions of 1928:

Chemistry 93—Research in Organic Chemistry.
Education 52—Supervision.
Education 56—Seminar.
English 240—Studies in Neo-Classical Literature.
Geology 50-a and 50-c—Advanced Geology and Advanced Paleontology.
History LV—Seminar in American History.
Political Science 51—Seminar in the Government of the United States.
Psychology 200-a—Seminar.
Zoology 50—

Several Fellowships In Chemistry Offered

Must Have Bachelor's Degree With
Four Years in Chemistry, Calculus
and Physics

A number of Fellowships in Chemistry are offered to graduates wishing to work for a higher degree in Organic Chemistry or Biochemistry. The qualifications are a bachelor's degree with four years in Chemistry (General, Analytical, Organic and Physical), Calculus and Physics; and a reading knowledge of German or French.

Fellows devote thirteen hours a week to assisting in the laboratory, conducting quiz-sections and grading papers.

Fellows may register for twelve-hour credits each semester so that the requirements for the degree of Master of Science in Chemistry may be satisfied in one academic year, plus one summer session of nine weeks.

The stipend is \$600.00 and free tuition for the academic year. Those whose work is satisfactory may receive appointments in the summer session.

The applicant should have the Recorder of the college or university forward a transcript of his record directly to this department, and request two professors to write this department stating his qualifications for teaching, his fitness to undertake graduate work, his age, physical condition and personal characteristics. The applicant should indicate which branch of chemistry he wishes to study, and submit a recent photograph.

Applications must be received not later than April 15.

Cues, Curtain-Calls and Clinches

By STAGE DOOR JOHNNY

THE EARLE

Adventurous romance, plenty of speed, as much melody, and not a little fun form the menu at the Earle this week.

The romantic adventuring you will discover by keeping a startled eye on the Mr. Rod La Roque as he smiles, fights and loves his way through the hazardous and hair-raising episodes of "Stand and Deliver," one of the better of the Pathé-Mille releases, in which he is supported by Lupe Velez, the electric spark seen opposite Douglas Fairbanks in "The Gaucho," and a considerable number of other notables. The other elements of seasonable diversion will be found in the stage and orchestral contributions to a well-rounded program that met with the enthusiastic approval of Saturday night's crowd.

On the stage Jack Pepper, singer, dancer and chatterbox, serves as master of ceremonies presiding over the activities of the Three Co-eds, a trio of charming feminine close-harmonists grouped about a toy piano; Lady Teen Mei, a Chinese songstress who doesn't speak any English, not much; Morosco and Daniels, a male dancing duo, whose "drunk" number is a gem; Marty White, versatile vaudevillian, assisted by one who seems to be his twin; Hazel Romaine, as breezy a chanteuse as ever came out of Chicago; the Kaufman girls and Jack himself.

PALACE

A tensely interesting and thrilling melodrama, "The Big City," well worth seeing, features the current week at Loew's Palace.

This latest of Lon Chaney's is a great picture, viewed from all angles. It is one which quickens the pulse and is carried through with such dramatic forcefulness that one senses the very atmosphere of the situations, the intensity of the moments and the thrills of the romance.

As to plot, the type is not one of moral uplift, and we hope not intended to convey the idea that it is true to life, but one, nevertheless, well planned for the enjoyment of the spectator.

Once again Chaney abandons the type of picture that elevated him to stardom. Now he comes in a straight character—that of a leader of a notorious gang. In this new vehicle, however, he does not have the many opportunities for great dramatic work, given him in character studies, but his work as "Chuck" is most satisfactory. James Murray, as Curley, Chuck's right-hand man; Marceline Day, as "Sunshine," the good girl in the thieves' home; and Betty Compton, as dancer, all put over excellent interpretations of their respective parts.

Lora Hoffman, prima donna, captured her audience with several songs. The Pasquali Brothers, in their acrobatic specialty put over some wonderful stunts of hand and body balancing. Winfield and Mills, in "The Chinaman and the Coon," convulsed the audience. Mildred and Muriel Lee are snappy dancers, and the Foster Girls furnish their share of the entertainment.

METROPOLITAN

Harold Lloyd will again be the major attraction at the Metropolitan Theater this week in his latest and greatest comedy, "Speedy," which has been held over in response to the many requests from satisfied patrons who have asked that it be shown again this week so that their friends may see it and that they themselves may see it again.

In "Speedy" Harold Lloyd has again succeeded in surpassing his previous successes. As typical of all Harold Lloyd productions, entirely new and highly humorous situations and gags have been injected.

Lloyd introduced a new leading wo-

man in this comedy. She is Ann Christie, whose work promises soon to put her on the star list. Added short reels and orchestra.

COLUMBIA

King Vidor's fine production, "The Crowd," has been held over for a second week at the Columbia indicating that real worth is appreciated here in Washington. This screen story deals very frankly with episodes in the life of John Sims from the moment of his birth, through tragedies and triumphs up to the culmination of his life's ambitions.

Of "the crowd," yet always apart from it, John lives, in the main, the humdrum life of the city. He marries Mary, another member of "the crowd," and together they walk through life, exasperated by its monotony and petty quarrels, torn by its sorrows, staggered by its failures, but sustained to happiness and success by a true love for each other. James Murray and Eleanor Boardman as lovers and as husband and wife give, perhaps, the finest interpretations of their kind ever seen on the screen and Bert Roache as John's friend adds much to the lighter moments of the picture.

"SIMBA" AT POLI'S PROMISES THRILLS

Picture Is Record of Startling Four-
Year Trek In African
Jungles

"Simba," a thriller and entertaining far beyond any motion picture of the ordinary run, is the attraction opening at Poli's Sunday, April 22, with two performances scheduled daily after the opening, to be given at 2.20 and 8.20. The film is the motion picture record made by Mr. and Mrs. Martin Johnson, the famous explorers, during four years in the jungles of Africa, when they succeeded in getting pictures of practically every wild animal common to that country of wild beasts. It is said to hold not a dull moment from the time the Johnsons load their outfit for the long trek through to the startling climax when half-naked natives, armed only with slender spears, surround and dispatch full grown lions.

Among the interesting features of the picture are the charge of an infuriated rhino straight at Osa Johnson, who is forced to shoot him to save her own life; the stampede of a herd of elephants by a jungle fire; swarms of ugly crocodiles infesting the rivers; gorgeous shots of running giraffes, of speeding antelope and zebras; marvelous flashlights of lions and leopards, and a thrilling scene showing fourteen lions playing in a grassy glade like a family of large cats.

G. W. U. Masonic Club Scheduled For Monday

Final Meeting of the Year to Be Held
at the Everett Hotel

The final meeting of the George Washington University Masonic Club will be held at the Everett Hotel, 1730 H Street N. W., on Monday evening, April 23, 1928, at 7.15 o'clock.

Following the usual custom of the club the meeting will be preceded by supper. The meeting will be addressed by a speaker of note and it is understood that the address will be illustrated by motion pictures.

All Masons of the University are cordially invited to be present at this meeting and to learn of the activities of the club.

G. W. CADET PICTURE

Students in George Washington who were formerly members of the Cadet Corps of the Washington High Schools are requested to assemble on the steps of Corcoran Hall on Friday, April 20, at 5 o'clock for a picture for the Adjutant, the cadet publication.

"2 X 2 = 5" MAY BE CUT BEFORE PRESENTATION

Edward Moulton, Student Director,
Plans to Present Play as
Written

After having learned that Professor Robert W. Bolwell, chairman of the faculty committee on dramatics, issued an order that any libelous or doubtful passages in "2 X 2 = 5," the George Washington University Dramatic Association play which will be presented at the Wardman Park Theater for the week beginning April 23, be cut, Edward Moulton, student manager of production, indicated that the play would be presented as written as is evidenced in the following statement made by him yesterday:

"I do not believe that at this stage of development, that is to say, of university dramatic efforts, we should be curtailed by false modesty. What if Paul Able, the hero of the play, does live with a woman not his wife and what if other things are not ideal? Is it not true to life and was not Weld great enough to see life as it actually is and point out, in his amusing and entertaining way, our foolish little acts? On the whole, I shall insist on the presentation of the play as it came from Weld's pen."

Whether or not the proper faculty authorities will take further steps towards "cutting" the play could not be learned. It is certain, however, that not much can be done in the way of alteration at this late date since the first performance is scheduled for next Monday evening, April 23.

HOTEL MANAGER SPEAKS

Mrs. Mary Lindsay, manager of the Grace Dodge Hotel, addressed the members of the Home Economics Club on "Other Fields in Home Economics than Teaching." The talk took place after the regular business meeting of the organization which was held in the Home Economics Building, Tuesday, April 3.

An invitation to a tea was extended to the club, in its honor, to be given by the District Home Economics Association in April.

DEAD PROF'S WRITING KEPT

EASTON, Pa. (IP).—The last blackboard handwriting of the late Francis A. March, Jr., professor of English composition at Lafayette College, has been preserved by his former students.

Noting, the day after his sudden death recently, that two of his outlines, written by him on the day of his death, were still on the blackboard in his classroom; and by placing a "Do not Erase" sign beside it, they have preserved it. There is much speculation as to how long the writing will remain.

SEVEN TEACHERS WILL VISIT HERE

Visiting Professors To Instruct
At G. W. Summer
School

THREE ARE G. W. ALUMNI

Well-Known Instructors From Other
Institutions To Present New
Courses

The Faculty of the Summer Sessions will include seven visiting instructors. They are: Arthur D. Wright, Professor of Education in Dartmouth College, Rolvix Harlan, Professor of Sociology in the University of Richmond, Harry J. Steel, Director of Training, State Teachers College, Buffalo, M. L. Coombs, of the State Board of Education of Virginia, Dr. Orwin B. Griffin, William Armstrong Hunter, Associate Professor of Law, University of Florida, and Bernice Randall Angelico, Instructor of Music in the Washington Public Schools.

Of the visiting professors, three are alumni of the George Washington University. Professor Harlan received his Bachelor's degree from the George Washington University in 1899, and his Master's degree in 1901, and from the University of Chicago he received the Ph. D. degree in 1906. After a period of service in the Baptist ministry, Dr. Harlan served as Professor and Dean at Ottawa University. He was then for three years President of Sioux Falls College. From 1919 to 1922 he was Secretary of Social Service and Rural Community Work of the American Baptist Home Mission Association. He became Professor of Sociology at the University of Richmond in 1922. Professor Harlan has served as a member of important university conferences for the study of social problems, was the John Clifford lecturer before the British Brotherhoods in Liverpool in 1921, and is the author of numerous books and pamphlets.

Is From Chicago

Professor William Armstrong Hunter received the degree of Bachelor of Arts at the University of Chicago, and the degrees of Bachelor of Laws in 1923, and Master of Laws in 1924 from the Law School of the George Washington University. After a period of service in the Department of Justice, and practice of law in Florida, he became Associate Professor of Law at the University of Florida. Professor Hunter will give courses in Equity Pleading and Code Pleading during the second summer term of the Law School.

Mrs. Angelico is a graduate of the School of Education of the George Washington University and has served for some years as an instructor in Music in the Public Schools of the District. She will offer courses in Appreciation of Music and Public School Methods.

Of the other visiting professors, Professor Wright of Dartmouth College is well known here, where he has taught for the last several years during the summer session.

Hunts 2 Years for the Right Tobacco

Dallas, Texas
March 22, 1927

Larus & Bro. Co.
Richmond, Va.
Gentlemen:

The worst thing in the world to try to find is a good pipe tobacco that is well within the reach of everybody, and at the same time does not taste like it had just come out of the cabbage patch.

I have been smoking a pipe for two years and have just this month started to smoke a real smoke, Edgeworth. If at first you don't succeed, try, try again. Believe me, I tried for two years, but finally success is more than mine.

I have just been looking around, and have found to my delight that I can get Edgeworth practically anywhere. I even found it out at the lake near Dallas where I go fishing. Oh boy, what a combination—a perfect day, a can of good tobacco, and your pipe. I always thought these ad letters were the bunk, but this time I know somebody is wrong and that is me.

Here's to old Edgeworth,
Edmund Condon
